

TEFAF New York 2023

May 11 – 16, 2023

Participating in **DesignMiami/** for the sixteenth time, **GALERIE PATRICK SEGUIN** will present a selection of iconic designs from leading figures of 20th-century design and decorative arts, namely **JEAN PROUVÉ**, **JEAN ROYÈRE**, **PIERRE JEANNERET**, **CHARLOTTE PERRIAND** and **LE CORBUSIER**.

In an elegant display, the gallery will exhibit furniture and lighting by **JEAN ROYÈRE**, in particular a rare and exquisite Tour Eiffel coffee table and a pair of ravishing Cœuf armchairs, testimony to the great creativity of their designer and of the elegance and poetry of his world.

Conversely, concerned with the rationality between form and function and removing any superfluous detail, Jean Prouvé, Charlotte Perriand, Le Corbusier and Pierre Jeanneret gave birth to modern furniture and architecture in a prelude to the new ways of living that became widespread at the beginning of the 1950s.

Thus, the clean lines of **CHARLOTTE PERRIAND**'s extraordinary bookshelves, or her surprising, four-metre-long wall-hung cabinet, illustrate this new spirit in their elegant simplicity.

In the same way, the furniture designed by **PIERRE JEANNERET** for Chandigarh, such as the imposing illuminated library table, or Jean Prouvé's now iconic Métropole chairs, attest to the absolute modernity of these creations.

Polyvalent creative genius, **JEAN PROUVÉ** was also at the origin of numerous projects of demountable architecture. One of these, the Maxéville design office, developed in 1948, will also be shown. The installation will enable visitors to immerse themselves in this unique, avant-garde building.
